KYZEN Opens New Penang Office to Continue Success in Malaysia

NASHVILLE — October 2026 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, is pleased to announce the opening of the company's new Southeast Asian Headquarters building and production facility in Penang, Malaysia marking a significant milestone in the company's continued growth and long-term commitment to the Asia-Pacific region.

The new Southeast Asia Headquarters facility marks another milestone in KYZEN's initiative to "Build for the Future." The new facility is expected to play a key role in supporting regional growth, enhancing supply chain resilience, and delivering innovative solutions to customers throughout Asia.

"We are extremely proud of this new facility and we are thrilled to continue offering our industry leading chemistries and lab services from this improved space," said KYZEN President and Chief Operating Officer R. Erik Miller. "We also commend our KYZEN Clean Team in Penang for their dedication in serving our customers in Southeast Asia, even in the midst of a substantial move to a new facility and through the conversion of that facility for our needs."

The new KYZEN facility is designed to enhance production capacity, improve product delivery, and strengthen technical support services while incorporating advanced manufacturing technologies and sustainable operating practices. This improved location also provides an upgrade in administrative space, allowing KYZEN's cleaning experts in Penang an improved environment to welcome and serve customers in person.

Said KJ Lee, KYZEN's General Manager of Asia, "The KYZEN Asia team is excited to welcome our customers and partners to our new Southeast Asia facility. Everything we do is to provide KYZEN care and our innovative solutions and chemistries to customers now and in the future. This new space is the perfect place for that and we are eager to continue serving them from the beautiful new Penang headquarters."

Beyond its economic contribution, KYZEN remains dedicated to fostering innovation, technology transfer, and talent development in Malaysia. The company will continue collaborating with industry stakeholders, educational institutions, and government agencies to support the development of future-ready skills and strengthen the country's competitiveness in advanced manufacturing.

For more than 35 years, KYZEN has produced cleaning chemistries and technologies while partnering with distributors around the world to provide effective cleaning and environmentally responsible cleaning solutions.
