FOR IMMEDIATE RELEASE

Magnalytix to Highlight Objective Evidence (OE) in a Box at SMTA International 2026

NASHVILLE – September 2026 – Magnalytix, providing real-time reliability solutions for electronics manufacturing, will exhibit at SMTA International, scheduled to take place October 25-29, 2026, at the Donald E. Stephens Convention Center. Magnalytix will be on-site at Booth #2619 to provide information about Objective Evidence (OE) in a Box, its new offering set to bring ease to manufacturers' reliability testing.

Magnalytix remains the industry's largest provider of complete and comprehensive SIR testing services while proudly providing Objective Evidence through comprehensive third-party validation reports and innovative offerings like OE in a Box.

The revolutionary OE in Box, available in three unique configurations: SMT Essentials, Full Process/Mixed Technology, and High Density Mixed Technology, conveniently packages the essentials for generating a J-STD Objective evidence report, including 10 Magnalytix Test Cards, taped and reeled components, and more, in a single box delivered to the manufacturer. Magnalytix encourages SMTA International attendees to visit Booth #2619 to match an OE in a Box kit to their unique validation needs.

During the technical conference, Dr. Mike Bixenman, Magnalytix SME Cleaning and Reliability, will present during two sessions, both scheduled to take place on Tuesday, October 27. Bixenman will present "Process Characterization for Determining Acceptable Levels of Flux Residue," co-authored by Matt Imburgia, from 11:30 a.m.-12 p.m. in Room 47. Then, from 1:30-2 p.m., Bixenman will present "Process Qualification to J-STD-001 Section 8 Cleanliness," co-authored by Zach Papiez in Room 49.

Magnalytix strives to assist electronics manufacturers worldwide in providing their customers with reliable electronic devices through trusted service and the science of real-time Objective Evidence. To learn more about Magnalytix's full slate of services, test boards, and real-time reliability solutions, visit www.magnalytix.com.

About Magnalytix

Magnalytix is at the forefront of an ongoing revolution in cleanliness reliability testing, bringing a new level of consistency and confidence to manufacturers and OEMs. Components are getting smaller and smaller, and electronics are playing a greater-than-ever role in our daily lives. Reliability matters more than ever. In today's miniaturized manufacturing environment, precision cleaning process reliability is critical. And with products from medical devices to military weapons to self-driving automobiles, reliable electronics can be the difference between life and death. Now is the time and Magnalytix is ready with game-changing solutions that run in real-time in your process, on the factory floor. For more information, visit www.magnalytix.com.
