Kurtz Ersä Wins 2026 Mexico Technology Award for VERSAFLOW ONE Selective Soldering System

Plymouth, WI — October 2026 — Kurtz Ersä Inc., a leading supplier of electronics production equipment, announces that its VERSAFLOW ONE Selective Soldering System received a 2026 Mexico Technology Award in the Selective Soldering category. The award was presented during a ceremony at SMTA Guadalajara 2026 on Wednesday, October 7, 2026, in Guadalajara, Jalisco, Mexico.

The VERSAFLOW ONE is Ersä's compact in-line selective soldering platform, combining proven soldering technology with a flexible, space-efficient design to support a wide range of production requirements. Built in Mexico, the system delivers reliable selective soldering performance while helping manufacturers optimize floor space, simplify integration, and achieve an attractive total cost of ownership.

Designed for today's demanding electronics manufacturing environments, VERSAFLOW ONE provides manufacturers with a scalable solution for high-quality soldering of complex assemblies. Its flexible configuration allows production teams to adapt the system to changing manufacturing needs while maintaining consistent process performance and repeatability.

By combining Ersä's extensive selective soldering expertise with a compact footprint and cost-effective design, VERSAFLOW ONE enables manufacturers to improve production efficiency without compromising quality. The system supports the needs of a broad range of industries where reliable solder joints, process control, and operational flexibility are essential.

With its combination of proven technology, manufacturing efficiency, and accessibility for a wide range of production environments, the VERSAFLOW ONE represents Ersä's continued commitment to helping electronics manufacturers achieve reliable, efficient, and sustainable soldering processes.

The Mexico Technology Awards recognize the most recent technological innovations in Mexico's manufacturing landscape, spotlighting achievements by OEM manufacturing equipment and materials suppliers over the past year.
