

FOR IMMEDIATE RELEASE

Fuji America Corporation to Showcase Smart SMT Solutions at SMTA Guadalajara Expo & Tech Forum 2026

Vernon Hills, IL September 2026

Fuji America Corporation will exhibit at SMTA Guadalajara Expo & Tech Forum 2026, taking place October 7–8 at Expo Guadalajara Salón Jalisco Hall D & E in Guadalajara, Jalisco, Mexico. Visitors are invited to Booth #546 to explore Fuji's latest SMT placement technologies designed to support high-efficiency, flexible, and connected manufacturing environments.

At the show, Fuji will showcase its advanced SMT solutions, including the **NXTR S**, **AIMEXR**, and additional technologies from its Smart Factory solutions. Demonstrations will highlight how Fuji's equipment helps manufacturers improve productivity, optimize production processes, and adapt to the changing demands of electronics assembly.

The **NXTR S** is a modular SMT placement platform designed for high accuracy, flexibility, and reliable performance in today's demanding production environments. Its scalable design allows manufacturers to configure systems based on their specific production needs while supporting efficient line operation and future expansion.

The **AIMEXR** is built to address the challenges of high-mix manufacturing, offering the flexibility needed to handle a wide range of components and applications. With advanced placement capabilities and features designed to simplify changeovers, AIMEXR helps manufacturers maintain productivity while managing increasingly diverse product requirements.

Fuji's exhibit will also showcase how its Smart Factory solutions help manufacturers move toward more connected and data-driven production. Through intelligent automation, improved visibility, and flexible equipment platforms, Fuji continues to help electronics manufacturers increase efficiency and maintain consistent quality.

Visit Fuji America at **Booth #546** during SMTA Guadalajara Expo & Tech Forum 2026 to learn more about the latest SMT solutions and see how Fuji is helping manufacturers build smarter, more adaptable production environments.

About Fuji America Corporation

Fuji America Corporation is a recognized leader in SMT pick and place solutions and smart factory automation. The company is committed to advancing modern manufacturing through high speed, high precision placement machines and intelligent software. With decades of innovation in vision processing and part recognition, Fuji's robotic electronic component mounters continue to set industry standards for quality, performance, and reliability.
