FOR IMMEDIATE RELEASE

Horizon Sales to Showcase Equipment Solutions and Quasi C2 Cart at SMTA Space Coast Expo & Tech Forum

BRIGHTON, MI — October 2026 — Horizon Sales, a leading manufacturers' representative and distributor to the electronics industry, will exhibit at the SMTA Space Coast Expo & Tech Forum on November 14 at the Melbourne Auditorium in Melbourne, Florida. The company will showcase its equipment line and feature a Quasi C2 Cart, providing attendees with an opportunity to see the material-handling solution firsthand.

"SMTA Space Coast provides us with another valuable opportunity to meet directly with electronics manufacturing professionals and discuss the challenges they face on the production floor," said Josh Casper, President of Horizon Sales. "We are looking forward to showcasing our equipment portfolio and giving attendees an opportunity to see the Quasi C2 Cart up close. Its automation and ease of implementation make it a practical solution for manufacturers looking to improve how materials are transported within their facilities."

The Quasi C2 Cart is designed to provide flexible, mobile storage and transportation for manufacturing environments. Its cart-based design enables materials and components to be organized and moved efficiently between work areas, helping manufacturers improve material accessibility while maintaining an orderly production environment.

At the event, Horizon Sales representatives will be available to discuss the Quasi C2 Cart, as well as the broader portfolio of equipment represented by the company. Attendees can learn how the equipment can be incorporated into electronics manufacturing operations and discuss specific production, material-handling and workflow requirements with the Horizon Sales team.
