FOR IMMEDIATE RELEASE

ICTC Philippines Expands Manufacturing Capabilities with New Facility in Laguna

Brooksville, FL – September 2026 – Interconnect Cable Technologies Corporation (ICTC), a global contract manufacturer, is proud to announce that ICTC Philippines has reached a significant milestone with the opening of its new manufacturing facility at Lot 3 Block 2, Laguna Technopark Inc. Phase 7, Binan, Laguna 4024, strengthening the company's presence in the Philippines and expanding its ability to support customers with advanced electronics manufacturing solutions.

Located south of Metro Manila, ICTC Philippines provides comprehensive electronics manufacturing services for commercial and industrial applications. The company specializes in cable and wire harness assemblies, printed circuit board assemblies (PCBAs), and full box-build testing and integration, providing customers with a broad range of capabilities through a single manufacturing partner.

The new facility represents an important investment in ICTC Philippines' continued growth and long-term commitment to serving its customers and professional partners. Designed to support the company's expanding operations, the facility provides additional capacity and resources to meet evolving customer requirements while maintaining ICTC's focus on quality, reliability, and responsive service.

The facility will be formally inaugurated on Friday, October 23, 2026, marking an important step in ICTC Philippines' continued development. The inauguration will bring together members of the ICTC global team, customers, professional partners, and other invited guests to recognize the company's expansion and the relationships that have helped support its growth.

The establishment of the new manufacturing facility also reflects ICTC Philippines' commitment to supporting the growing electronics manufacturing industry in the region. With expanded local capabilities,

the company is positioned to provide customers with greater manufacturing support and a more comprehensive range of services to meet their evolving needs.

“Opening our new manufacturing facility marks an exciting milestone for ICTC Philippines and an important step in our continued growth,” said Sareet Majumdar, President. “This investment reflects our confidence in the future of the electronics industry and our commitment to providing our customers and partners with the capabilities, expertise, and support they need. We are grateful to everyone who has contributed to this achievement and look forward to building on this momentum.”

The new facility provides ICTC Philippines with a foundation for continued growth and enables the company to strengthen its relationships with customers and partners throughout the region. By combining expanded manufacturing capacity with expertise in cable and wire harness assemblies, PCBAs, and full box-build testing and integration, ICTC Philippines can support customers from individual assemblies through integrated products and systems.
