FOR IMMEDIATE RELEASE**KIC to Showcase Thermal Process Intelligence at SMTA Reynosa Expo & Tech Forum**

SAN DIEGO, CA – August 2026 – KIC, a global leader in thermal process intelligence, will exhibit at the SMTA Reynosa Expo & Tech Forum on September 10, 2026, at the Holiday Inn Reynosa Zona Dorada in Reynosa, Tamaulipas, Mexico. Attendees are invited to visit Booth 52 to meet Miguel Flores, Service Engineer, and learn how KIC helps manufacturers improve thermal process control, quality and efficiency.

With more than 25,000 systems installed worldwide, KIC transforms thermal process data into actionable manufacturing intelligence. Through its Heat to Data™ approach, KIC solutions support profiling, automatic profiling, process optimization, continuous monitoring and traceability, helping manufacturers better understand and control their thermal processes.

Flores will be available throughout the event to discuss thermal process challenges, profiling applications and ways manufacturers can improve process performance on the production floor.

The SMTA Reynosa Expo & Tech Forum will be held from 10 a.m.-6 p.m. Mexico Central Time. Attendees can visit KIC at Booth 52 to learn more.

###

About KIC

Celebrating 50 years, KIC is the market leader in thermal process traceability, optimization, and control solutions for electronics manufacturing. KIC helps manufacturers improve quality, reduce costs, and increase process visibility through data-driven thermal management. From automatic profiling and machine performance monitoring to advanced analytics and continuous process verification, KIC transforms Heat to Data™ into actionable intelligence that helps manufacturers achieve smarter, more reliable production.
