KYZEN to Highlight AQUANOX Cleaning Chemistries and Longer Bath Life at SMTA International

NASHVILLE — September 2026 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, will exhibit at SMTA International, scheduled to take place October 27-29 at the Donald E. Stephens Convention Center in Rosemont, Illinois. KYZEN's team of cleaning experts will be on-site at Booth 2925 to provide information about its AQUANOX® line of aqueous electronics cleaning chemistries and the benefits of prolonged bath life.

The AQUANOX line of aqueous cleaning chemistries is formulated to meet a variety of electronics cleaning challenges, including the effective removal of solder flux residues. With solutions designed to provide long bath life and consistent cleaning performance, AQUANOX chemistries help manufacturers maintain a stable and reliable cleaning process.

Longer bath life allows electronics manufacturers to run a tighter process while reducing the frequency of chemistry changeouts. By maintaining consistent cleaning performance for longer process times while limiting bath turnovers, manufacturers can improve process stability while reducing chemistry consumption, downtime and the total process cost of their cleaning operation.

For more than 35 years, KYZEN has developed innovative cleaning chemistries and process solutions to help electronics manufacturers achieve reliable cleaning results while improving process efficiency.

Make plans to stop by Booth 2925 at SMTA International and connect with KYZEN's cleaning experts to learn more about the AQUANOX line and calculate the cost of reliability and success within your cleaning process.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant

precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards. For more information, visit www.kyzen.com.
